Andrey Beliaev workes with Conpeth and literally designs everything you see connected with Conpeth Guitars company, marketing material, certificates, website (still in process) and even made technical design for all our instruments.

Starting as a freelance designer to create simple business cards he came to complicated technical designs that require the complete understanding of guitar building process. I personally appreciate his ability to critique and improve our instruments before they go to the production making the design plans more convenient for the later engineering. He loves to assist and wants to make your job easier even if that means he works harder.

His last project is Conpeth Guitars website. It is not launched at this moment unfortunately, but huge amount of work has been done and I believe that it will become really helpful instrument for our company and especially for our customers.

I have the pleasure of working with Andrey and I have nothing but great things to say about him. I highly recommend him as a professional and exceptional designer.

Truly, Constantin Petrenko

RECOMMENDATION LETTER

This letter acknowledges that Andrey Beliaev has worked for Belyi Aist pet hospital over the years from the very opening. Being chief designer he developed the brandbook, and designed all our business documentation, marketing materials and was the chief designer on our biggest project: iOS application development. He created a high quality user interface design and amazing user experience for our customers. His attention to details and general creativity made a huge impact on the whole project.

Andrey is a diligent worker, avid for acquiring new skills and new knowledge and has very high sense of responsibilities. He has established himself as our most senior designer, working on tasks that require both high levels of creativity and technical skills and frequently working under very tight deadlines. Andrey treats his design work as a craft that he's constantly trying to improve. A characteristic common for the best professionals I have ever worked with.

Sincerely,
Zvonsev Ilya, SEO

To whom it may concern,

My name is Mikhail Kuvaev and I'm Chief of External Relations Department in Neva Technology company. I'm writing to recommend Andrey Beliaev for the position of a web-designer. I have been working with Andrey as his supervisor which allowed me to work in close collaboration with him for nearly three years.

Andrey's role in our company endowed him with a wide varieties of tasks that allowed him to reveal many of his abilities, skills and talents.

During this time he developed a new brand book and redesigned all our printed materials (brochures, invitations, newsletters, magazines and convention stands) according to it. He worked on our web-site as a designer and a team leader. He was responsible for all the development process including research, testing, information collecting and text proofreading, and later web-site administration and updating.

I recommend Andrey absolutely sure that he would be a very valuable addition to any team.

Mikhail Kuvaev
Chief of External Relations Department

Typography Antan, SEO
Alexander Krilov

Recommendation letter

It's my pleasure to recommend Andrew Beliaev for the designer position. Andrew has been working as a graphic designer in typography "Antan" for five years. He is fluent in all the appropriate graphic design software and has shown initiative in learning new skills and expanding his talents outside of traditional print-based media. Even after he left our company we still work together printing for his freelance customers.

I hope that you consider my advice and select Andrew for the post of the graphic designer in your company. Through his overall asset, he is perfect fit for this job role. I am sure that Andrew will never disappoint you and your company.

Sincerely,

Alexander Krilov
